HENRY'S INVIGORATING CORDIAL.
PURELY VEGETABLE IN ITS COMPOSITION.

THIS invaluable Cordial in extracted from Herbs and Roots which have been found after years of experience, by the most skillful Physicians, to be possessed of qualities most beneficial in the diseases for which it is recommended, and hence whilst it is presented to the public as an efficacious remedy, it is also known to be of that character on which reliance may be placed as to its safety. In cases of Impotency, Hoemorrhages, Disordered Sterility, Menstruation, or [illegible]
DEBILITY
arising from any cause, such as weakness from sickness, where the patient has been confined to bed for some time, for Females after confinement, Abortion or Miscarriage, this Gordial cannot be excelled in its salutary effects; or in loss of Muscular Energy, Irritability, Physical prostration, Seminal Weakness, Palpitation of the Heart, Indigestion, Sluggishness, Decay of the Procreative Functions, Nervousness, &c., where a TONIC Medicine is required, it will be found equal, if not superior to any Compound ever used.
TO FEMALES.

Henry's Invigorating Cordial is one of the most invaluable Medicines in the many complaints to which Females are subject. It assists nature to brace the whole system, check excesses, and creates renewed health and happiness. Less suffering, disease and unhappiness among Ladies would exist, were they generally to adopt the use of this Cordial. Ladies who are debilitated by those obstructions which females are liable, are restored by the use of a bottle or two, to bloom and to vigor.
YOUNG MEN.

That solitary practice, so fatal to the existence of man, and it is the young who are most apt to become its victims, from ignorance of the danger to which they subject themselves, causes
NERVOUS DEBILITY,
Weakness of the System, and Premature Decay. Many of you may now be suffering, misled as to the cause or source of disease. To those, then, who by excess have brought on themselves, Premature Impotency. Involuntary Seminal Emissions, Weakness and Shriveling of the Genital Organs, Nervous Affection, or any other consequences of unrestrained indulgence of the sensual passions, occasioning the necessity of renouncing the felicities of
MARRIAGE,
lessening both mental and bodily capacity, Hold! Henry's Invigorating Gordial a Medicine that is purely Vegetable, will aid nature to restore those important functions to a healthy state, and will prove of service to you. It possesses rare virtues, is a general remover of disease, and strengthener of the system.
AS A TONIC MEDICINE,

it is unsurpassed. We do not place this Cordial on a footing with quack medicines, and, as is customary, append a long list of recommendations certificates, &c., beginning with "Hear what the Preacher says," and such like; it is not necessary for "Henry's Invigorating Cordial" only needs a trial to prove that it will accomplish all we say.
THE GENUINE "HENRY'S INVIGORATING CORDIAL,"
is put up in 8 oz. Pannel Bottles, and is easily recognized by the manufacturer's signature on the lable of each bottle, (to counterfeit which is forgery.

Carter's Spanish Mixture,
The great Purifier of the Blood.
Not a particle of Mercury in it.

AN Invaluable remedy for Scrofala, Kings Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Blotches, Boils, Chronic Sore Eyes, *Ring* Worm or Tetter, Scald Head, Enlargement and Pain of the bones and joints, Stubborn Ulcers, Syphilic Disorders, Lumbago, Spinal Complaints, and all diseases arising from an injudicious use of Murcury, Imprudence in Life, or Impurity of the Blood.

This valuable medicine, which has become celebrated for the number of extraordinary cures effected through its agency, has induced its Proprietors, at the urgent request of their friends, to offer it to the public, which they do with the utmost confidence in its [illegible] properties. The following certificates, selected from a large number are, however, stronger testimony than the mere word of the proprietors; and are all from gentlemen well known in their localities, and of the highest respectability, many of them residing in Richmond, Va.

F. Boyden, Esq., of the Exchange Hotel, Richmond, known every where, says he has seen the Medicine called Carter's Spanish Mixture administered in over a hundred cases, in nearly all the diseases for which it is recommended, with the most astonishing good results. He says it is the most extraordinary medicine he has ever seen

Ague and Fever—great cure.—I hereby certify, that for three years I had Ague and Fever of the most violent description. I had several Physicians, took large quantities of Quinine, Murcury, and I believe all the Tonics advertised, but all to no permanent relief. At last I tried Carter's Spanish Mixture, two bottles of which effectually cured me, and I am happy to say I have had neither Chills or Fever since. I consider it the best Tonic in the world, and the only medicine that ever reached my case. JOHN LONGDEN.
Beaver Dam, near Richmond, Va.

C. B. Luck, Esq. now in the city of Richmond, and for many years in the Post Office, has such confidence in the efficacy of Carter's Spanish Mixture, that he has bought upwards of 50 bottles, which he has given away to the afflicted. Mr. Luck says he has never known it to fail when taken according to directions.

Dr. Minge a practicing Physician, and formerly of the city Hotel, in the city of Richmond, says he has witnessed in a number of instances the effects of Carter's Spanish Mixture which were most truly surprising. He says in a case of Consumption, dependent on the Liver, the good effects were wonderful indeed.

Samuel M. Drinker of the firm of Drinker & Morris, Richmond, was cured of Liver Complaint of 8 years standing, by the use of two bottles of Carter's Spanish Mixture.

Great cure of Scrofula.—The Editors of the Richmond Republican had a servant employed in their press room, cured of violent Scrofula, combined with Rheumatism, which entirely disabled him from work. Two bottles of Carter's Spanish Mixture made a perfect cure of him, and the Editors, in a public notice, say they "cheerfully recommend it to all who are afflicted with any disease of the blood."

Still another cure of Scrofula.—I had a very valuable boy cured of Scrofula by Carter's Spanish Mixture [illegible] it to be a valuable medi[illegible] & P. R. R. Co., Richmond, Va.

Salt Rheum of 20 years standing cured.—Mr. John Thompson, residing in the city of Richmond was cured by three bottles of Carter's Spanish Mixture, of Salt Rheum, which he had nearly 20 years, and which all the physicians of the city could not cure. Mr. Thompson is a well known merchant in the city of Richmond, Va., and his cure is most remarkable.

Wm. A. Matthews, of Richmond, had a servant cured of Syphilis, in the worst form, by Carter's Spanish Mixture. He says he cheerfully recommends it, and considers it an invaluable medicine.

Richard E. West, of Richmond, was cured of Scrofula, and what Physicians called confirmed Consumption, by three bottles of Carter's Spanish Mixture.

Edwin Burton, commissioner of the revenue, says he has seen the good effects of Carter's Spanish Mixture in a number of Syphilitic cases, and says it is a perfect cure for that horrible disease.

Wm. G. Harwood, of Richmond, cured of Old Sores and Ulcers, which disabled him from walking. Took a few bottles of Carter's Spanish Mixture, and was enabled to walk without a crutch, in a short time permanently cured.

GOOD ADVICE

GEORGE, would you believe it?—just look at my head
My hair all appears as if it was dead;
You mentioned a remedy—what is it call'd?
I soon must apply it, or I will be bald.
"I told you so, Harry; you thought I was wrong;
But if you'd have your hair dark, flowing and long,
Stop its falling out and new life to it give,
Use the Tricopherous Hair Restorative!"

Great Improvement in Dentistry.
T. B. CARR, M. D. D. D. S.,

GRADUATE of the New York College and Practical Dentist for the last ten years, has been practicing in Wilmington nearly two years, where he is *permanently* located. He has the only right in this State to use Allens patent improvement (the same kind of work that took the *first* premium at the State fair in Raleigh last Fall) by which incorruptable artificial teeth are cemented to PLATINA PLATE with indestructible mineral cement. This cement is as strong as the teeth and perfectly fuses to the teeth and plate, forming a solid and continuous Gum, which is perfectly natural and life-like in appearance, never changes color, and does not become offensive to the wearer, as there is no place for [illegible]

He also inserts teeth on fine gold plate with or without artificial gums. The price of teeth on Platina Plate is the same as those on gold plate viz: $150 for an entire set. $7 each for any number less than ten. All teeth returnable without charge after three months' trial if not perfectly satisfactory. They are *warranted* to answer the purpose of mastication and not to be distinguished from natural teeth. Teeth inserted *immediately* after the extraction of the old roots and remodelled after the gums are shrunken without charges. Decayed teeth filled with gold so that they will never decay or ache.

Dr. Carr having devoted all his life to his profession (his father has been practicing medicine and dentistry more than thirty years) can confidently assure the public that every operation entrusted to him will be performed in the most scientific manner.

The World Lighting Up!

For thousands of years there has been darkness—
The multitudes have suffered with afflictions—
Millions of victims have been swept into the grave
Their wounds were unhealed, and they perished.
The deep secrets of Nature were hidden,
The vague mysteries of Art enshrouded in gloom.
"Wars and rumors of wars" shook the earth—
"The *Mexican* War" came in its turn—
The Mexican *Mustang* Liniment followed.
It commenced radiating over the United States—
It continued its mighty course from Maine to Texas
It swept from the Atlantic to the Pacific!
It cured thousands of their infirmities—
They told their joy to tens of thousands;
Its merits were soon known to millions—
The entire continent of North America heard of it,
It has eradicated Rheumatism and Piles—
It has cured deep ulcers and frightning sores—
Burns, cuts and bruises have vanished—
It has cured frosted surfaces and chapped hands,
It will cure any wound or disease
Where an external remedy can be applied.
It can be used on horses and other animals,
Sprains, Splent, Ringbone and Fistula,
And all similar diseases can be cured
With the *Mexican Mustang* Liniment.
Farmers and stable keepers should try it—
Families should never be without it.
It is sold by druggists and Country Storekeepers, Throughout the States and British Provinces.

LINES ON THE DEATH OF MRS. B******.

Dear friend of my childhood, thou'rt gone from us now,
No more shall we gaze on thy fair open brow,
No more shall we hear the sweet tones of thy voice,
No more shall thy light step our sad heart rejoice,
No more shall thy laugh that we once loved to hear,
So happy, so joyous, fall now on our ear;
It's sweet music is hushed, sad, sad is the thought,
That steals o'er our heart with such memories fraught.
Thou wert but a wife for one short fleeting year,
The light of a home that thy smile rendered dear,
That home, ah how lonely, tis shrouded in gloom,
For the dearly loved one sleeps now in the tomb,
Thou hast left us dear friend to join those above,
To sing with the bright Host their anthems of love;
Thou'rt gone to the land where music and flowers,
Ne'er feel the sad blight of this dim world of ours.

MR. CRITTENDEN'S LETTER.

ST. LOUIS, May 14, '54.

Dear H——, Your letter of 2d inst. was received a few days ago, and you may be sure [illegible] that the motives appreciated.

You desire information in relation to my appearance as counsel in the late trial of youug Ward, in order that my friends may be better able to vindicate my conduct from the unjust censure which, without reflection, has been cast upon it.

I have had nothing to do with that case except professionally, as counsel for the accused. My connection with it may be stated in a few words. Details are unnecessary and immaterial.

Relations of private friendship had from my earliest manhood existed between me and many of the members of the family to which belong Robert J. Ward, Esq., the father of the accused.

He and I had long been personal friends, and a friend he was to be loved and valued.

When he was in the deepest distress and agony, it was made known to me that he desired I should appear as counsel for his sons, then imprisoned and awaiting their trial under a heavy load of prejudice and excitement.—Could I as a professional man, could I as a *friend* have refused to do so? No, I could not.

The very responsibility of appearing in the case, under the existing excitement, made it more necessary for me to do it, or appear to be a timid lawyer and worthless friend.

After considering of the matter, and the repeated solicitations of common friends, I determined not to reject the appeals made to me, but to appear in the case and render to the accused such professional services as I could.—I determined also that I would receive no fee for my services. I believed that I might exact almost what amount of compensation I pleased, and that was felt by me as a reason why I should take none. I shrank from the idea or appearance even of bargaining with a distressed friend, or speculating upon his misfortunes or his generosity. Having come to these conclusions, I informed Mr. Matt. F. Ward of them by a note addressed to him some few weeks before his trial, and received from him a letter of grateful acknowledgements. His father was then absent in New Orleans, as I supposed.

I accordingly rppeared for him, and defended him with what ability I could command, and did nor said anything that was not within the strictest limits of an honest and honorable discharge of professional duty.

The trial took place at Elizabethtown, the seat of justice of Hardin county, about eighty or one hundred miles from my residence in Frankfort.

I had nothing to do with the preparation rf the case or the selection of a jury. These professional duties were performed by other counsel better acquainted with the facts of the case, and the persons presented as jurors. I have no reason to doubt that these duties were performed in a manner becoming the profeesion, and the character of the counsel on whom they devolved I may say that I had nothing to do with the case but to argue it before the court and jury. The trial, so far as I know or could observe, was, in all respects, fairly conducted.

At the time I engaged to appear in the case, I ead heard nothing of it but what might have been gathered from common rumor.

I have done nothing but what my judgment and my feelings approved. I have in the exercise of my profession appeared as counsel for a friend, the son of a friend, and for that I have no defence to make. I did not intrude myself into the cause. I appeared in it only because they wished it.

I am your friend, &c.
J. J. CRITTENDEN,
L. H., Esq., New Orleans.

GEN. DOCKERY AND THE CONSTITUTION.

It is strange that his political opponents should be anxious to misrepresent Gen. Dockery's position in regard to amendments of the Constitution, through their presses. Some folks get into such a habit of telling fibs, that it becomes a second nature with them, and will talk naughtily when other language will do as well or better. Not only in this, but in almost every other point has the same perversion been manifested. Our object, at present is to set our readers right in regard to amendments of the State Constitution. Those who have heard him speak requires no information on the subject—but some have not, so we give a report of the opinions as expressed in Salisbury, and reported by the Editor of the *Watchman*.

We do this because certain persons are apt to make a mistake by saying "Ah, Gen. Dockery said so and so here, but he did not talk so in the West."

"He is now, and for many years has been, in favor of Free Suffrage. He prefers the Conventional mode of amending the Constitution because that mode is more speedy and safe, and consequently cheaper; and is freer from the influence of party;—because in choosing men for that especial purpose our best and wisest men will be selected irrespective of party, and the results of their labors will be more apt to look more particularly to the lasting interest of the State. No man can controvert these positions, we think; and they make up an argument in favor of the Conventional mode over that of Legislative amendments, which it becomes all candid frlends of the State seriously to consider before they reject it. If they desire a change in the Constitution let them not commit it to the hands of the small party men who are too often sent to the Legislature; but let them choose the wise, the venerable, the discreet, the honorable men of the land, who look more to the future prosperity and glory of our good old State, than to the success of parties. We beseech them to consider these things, and to act as they will wish to answer at the bar of conscience."—*Wil. Commercial.*

☞ THE OFFICE OF THE "TELEGRAPH" IS UP STAIRS, IN THE BRICK BUILDING OPPOSITE MRS. GRISWOLD'S HOTEL.

FOR GOVERNOR,
HON. ALFRED DOCKERY,
Of Richmond County.

APPOINTMENTS.

Lenoir, Friday,	14th	"
Morganton, Saturday,	15th	"
Marion, Monday,	17th	"
Rutherfordton, Wednesday,	19th	July.

☞ We have received a communication cut from the Wilmington Herald, in which our Post Master is dealt with very severely, with the request that we copy. We must decline doing so for two reasons. The first is that the communication is not accompanied with a re[illegible] acquainted with the facts, our friend would not thank us for publishing his article. It is only necessary to state that Mr. Taylor does not pretend to send a mail by the night train, for the simple reason, that he has never received instructions so to do. Should the Department order him to send a mail by that train, we have no doubt but he will discharge his duty promptly.

The Stage from Raleigh is a *tri-weekly* line, instead of a *daily*.

GEN. DOCKERY.

From every quarter we have cheering accounts. Gen. Dockery is a man in whom the people every where have an abiding confidence. His frank, honest bearing, unmixed by any fantastic display, impresses every one with a feeling of respect, and the irresistable conviction that he is eminently a man of the people—that his principles are identified with their principles, his interests with their interests, and as such must be the man of their choice for the office of Governor. On all occasions he has proven true to the people of his beloved State. A farmer, procuring his sustenence from the soil of the earth, and not by the misfortune of some man who has become involved in law, he understands and knows the feelings and the hearts of the farming portion of our State. The improvements now going on in that department requires to receive every aid and impetus which can be imparted. Promote those who are the friends of the agriculturl interests of the State, so that that interest may be attended to among others. It should have its friends who would stand by it and aid it by every legitimate means. There is no better or more successful farmer in the State than Gen. Dockery. That is the profession at which he was raised, educated and very naturally selected when he became of age. Commencing on very small means at first, he has gradually succeeded in acquiring a competence for himself and family. And although almost uneducated in learning, yet his fellow citizens have elevated him to high positions, where he served his constituents faithfully and satisfactorily—so entirely so as to have never sustained defeat.

"NOT OPPOSED," &C.

We have frequently heard the expression used, "I am not opposed to Railroads, I am for them," by persons whom we knew *were*.—And by just asking them if they were willing to aid, either by stock or tax, their answer would be promptly and invariably, that they *were not*. Suggest to them that they had declared for internal improvements, and they will say, "O, I am in favor of them so you don't tax *me* and others by carrying them on." That is their position. It is the position of many—we think a very large majority of the Democratic leaders, even now. What sort of "favor" is that. Do I care two straws whether a man is in favor of or opposed to anything which I do of my own accord. What *good* does any man's "favor" do when he is not giving his share of aid? We should consider it presumption in any man to tell us that he was opposed to any enterprise we were disposed to enter into. If he make no risk and pay nothing toward such an object, we would not thank him for his favor, or fear his opposition. So with the internal improvement man—or the *friend* of Railroads. We thank no "friend" who will not *aid*, and aid willingly. Any such a friend as we have referred to is of course a bitter enemy and opposed to the work he pretends to favor. Because if he denies and refuses the *means*, of course the work cannot go on.—Beware of wolves in sheep's clothing. Beware of these "buts," "ifs," and "whenever" "judicious" word men. They *are opposed to our Railroads!*

MISREPRESENTATIONS.

The *Hon.* T. L. Clingman, a member of Congress, is engaged in misrepresenting Gen. Dockery, and some Democrats are conniving at it, not openly and directly to be sure (on this point) but by implication. He says Gen. D. never "introduced a bill" to distribute the *proceeds* of the public lands among the States.—Here it is evidently sought to make the impression that Gen. D. was opposed to distributing the lands when he got to Congress, when it is well known that he voted for a bill to distribute public lands among all the States, "North Carolina inclusive," and did all he could to have the bill passed. But this *modest* lawyer in Congress sends home in a letter a charge in the above shape, misrepresenting a Union man, an internal improvement man, and a *Distribution* man whom he cordially hates. The people of the State nor of his district will not accommodate a spirit so malignant. They will support the friends of the interest of the State—not South Carolina sympathisers.

PUBLIC LANDS—THE DEMOCRATIC POLICY.

It is estimated that there are now belonging to the U. S. government 1,400,000,000, (fourteen hundred *millions,*) of acres, or, 2,187,500 (two millions, one hundred and eighty-seven thousand, five hundred) square *miles* of public land. This vast amount of property which belongs to the people of *all* the States, North Carolina inclusive, ought to be so managed that each State may realize her share. Has this been done? Has it been the aim and policy of those in power, so to manage it? It has been asserted that it has. But facts speak to us in unmistakeable language, and tell us—all who are disposed to hear them—that the contrary is the fact. So far so that it has been the policy in theory and practice to squander them in liberal profusion to the States in which they lie, the new States. We propose to submit facts to prove that our premises are correct.

In 1832 then, when this question of the public lands was raised, there were two and *but two* parties thereon. The one was for distributing them, or their proceeds *among the States*. The other was for giving to the States *in which they lay*, or the *Western* States, 99-100 of them being in the West. This we [illegible] wish to impress [illegible] state of parties on the land question, as all intelligent men who recollect the condition of parties on this subject can testify. This new "revenue" doctrine for the national treasury had *not* a "corporal's guard" in both Houses of Congress to support it. Neither Clay men, Adams men, Calhoun men, or *Jackson men*, neither Whigs nor *Democrats* entertained such doctrine, or advocated such a disposition of these lands. True, Mr. Clay had been satisfied to let the land remain as revenue. But that policy was threatened to be overridden at *that early day*, when he was compelled, by the action of the Democratic party, (the body of them, not all,) to devise some plan by which these valuable lands should not be squandered away exclusively to new States, and thus *deprive* the old States, North Carolina among the number, of their share in them. We now submit a few facts from the old records to prove our position as to the commencement of this question. We sometimes now hear that it *always* was the policy of the Democratic party to keep these lands "held" as a source of revenue. This doctrine is of comparatively recent date. We mean, of course, after payment of the debt for which they were ceded as Gen. Jackson stated in his message to Congress.

A two-penny party speech *said* to have been delivered in Congress, full of misrepresentations and misstatements from end to end, winding up with opposition to internal improvements, in enforcing the "revenue" idea ostensibly, but in reality paving the way for the more extended system of plunder on the "alternate section" doctrine, by which the body of this public lands is to be wrested from the old States,—this speech which is engaged in this delectable business, continuing in its appropriate sphere, misrepresents Mr. Clay, in order to make him sanction the miserable doctrine for which it contends. It thus garbles out of Mr. C.'s speech—

"We might here pause, and wonder that there should be a disposition to waste or throw away this great resource, or to abolish a system which has been fraught with so many manifest advantages."

This much is quoted to prove that Mr. Clay by this [illegible] doctrine. Why did he not quote the *very next line* in the *same* paragraph so as to convey what Mr. C. did mean, and to what he *did* apply his language. Read it—

"Nevertheless, there *are such*, who, impatient with the slow and natural operation of wise laws, have put forth *various* pretensions and *projects* concerning the public lands, within *a few* years past. One of these pretensions is an assumption of the sovereign right of the *new States* to *all* the lands, within *their respective limits*, to the exclusion of the general government and to the exclusion of *all* the people of the United States, those in the *new States only* excepted. It is my purpose now to trace the *origin*, examine the nature, and expose the *injustice* of this pretension." [Which he did in a masterly—convincing manner.]

There is what the great Clay said on that subject, notwithstanding the orator's "democracy"—his friendship to the people—whom he is endeavoring to deceive.

It was this disposition to cede to the new States, which arrested, not ony the attention of Mr. Clay, but also of Congress; for a bill, to distribute the proceeds of the lands among all the States *passed* near the close of the session, and was sent to the President who would neither sign, nor veto it. It was ascertained that it would pass *over* his veto; hence he arbitrarily kept it until the Session expired. By this arbitrary act N. C. was *deprived* of ($2,730,979) *two* millions, seven hundred and thirty thousand nine hundred and seventy-nine dollars for five years, or $455,163, nearly a half a million, a year. This amount would by this time, have aided our State largely in internal improvements, common schools, and in lunatic asylums too, but Democracy said we should not have it, and we did not get it. A majority of a Jackson Congress saw with Mr. C. on that subject.—But we will speak of what took place previously. When the subject came up in the Senate, it was referred to the committee on manufactures, of which Mr. Clay was a member, although there was a committee of public lands! In vain did Clay and his friends resist it. He went to work, however, and made his report accompanied by a bill, to distribute the sales among *all* the States, "North Carolina inclusive." The same dominant majority which [illegible] this [illegible], immediately on the reception of the report and bill, determined to strangle it. absolutely referred the report, &c., then, to the committee on the public lands! where it was at first sought, in vain, to carry it! Was such parliamentary manœvering ever known! At the head of this committee was W. R. King, of Alabama, late Vice President of the U. S., elected with Gen. Pierce. On behalf of the Administration he reported.—We will make a few extracts from that report. This was, bear in mind, the Democratic report.

Read it, ye "Revenue" Democats, and blush when you hear one of your comrades say, *his* party was always for the "revenue" doctrine on the public lands. This report will be found in the Journals of Congress of 1832. But they not being convenient to every one, Mr. Benton's new book contains copious extracts This book being sold now throughout the country, reference may be had to it. By the way, his own views will aid the reader to acquaint himself with the ground we take, by consulting the author's remarks. Mr. B. was a leading Jackson Senator.

"The committee" [on lands, W. R. King chairman,] "ventures to suggest that the view which the committee on manufactures as taken of the federal domain [public land,] is fundamentally *erroneous;* that it has misconceived the *true* principles of national *policy* with respect to wild lands; and, from this fundamental mistake and radical misconception have resulted the great errors which pervade the whole structure of their report and bill."

"The committee on manufactures," [Mr. Clay's committee,] "seem to contemplate the federal domain [the public lands] *merely as an object of* REVENUE, and look to that revenue solely from the receivers of the land offices; when the *science* of political economy has *ascertained* such a fund to be *chiefly*, if not exclusively, *valuable* under the *aspect of population* and cultivation, and the eventual extraction of revenue *from the people* in its customary modes of *taxes* and *imports*."

That was the Democratic doctrine in 1832! Mark it. Note the closing words of that paragraph when a demagogue speaks to you about Whigs wanting the Tariff raised. But we cannot resist another quotation from this *Democratic* document:—

"The celebrated Edmond Burke, (of the *British* House of Commons,) is supposed to have expressed the *sum total* of political *wisdom* on this subject, in his well known proposition to convert the forest lands of the British crown into private property; and this committee, to spare themselves of farther argument, and to extinguish, at once, a *political falacy* [of revenue] which ought *not* to have *been broached* in the nineteenth century, will make a brief quotation from the speech of that eminent man:"

"'The *revenue* to be derived from the sale of forest lands will *not* be so considerable as *many* have imagined; and I conceive it would be *unwise* [illegible] to suffer bidders to *enhance*, according to their eagerness, the purchase of objects wherein the expense of that purchase may weaken the capital to be employed in their cultivation. The *principle revenue* which *I* propose *to draw* from these uncultivated wastes, is to spring from the improvement and cultivation of the Kingdom * * * It is *thus* I would *dispose of* the unprofitable landed estates of the crown—throw them *into the mass of private property,*'" &c.

The committee then say, "This committee takes leave to say that the sentiments *here expressed* by Mr. Burke are the *inspirations of political wisdom;* that their *truth* and *wisdom* have been tested in all ages and all countries, and particularly in our own age and country.—The *history* of the public lands in the U. S. furnishes the *most instructive* lessons of the *inutility of sales,*" &c.

There is the Democratic doctrine openly, boldly and ingeniously avowed, and argued and endorsed, of throwing the lands into the "*mass of private* property" of the "*political falacy*" of *revenue* from them, and of the "inspiration of political *wisdom*" of Mr. Burke's *British* idea. Will not an *American* "*revenue*" *Democrat* blush, when he hears his party leaders promulging what has "always" been "our policy"? How dare they, in fact, to place themselves against "inspiration"? But we must quote another extract or two, to show the consistency of, and reliance on this Democratic party on the land question. After stating that these lands "were *expected*, at the time they were acquired by the U. S., to pay off the public debt," and that their real value was set down at 25 cents per acre, they continue: * * * "Yet after an *experiment* of nearly fifty years it is *found* that *the sales* of the public lands *so far* from paying the public debt, have *barely defrayed expenses* of managing the lands."

That is the language of the Jackson Administration reported by William R. King, late Vice President, which we place in juxta-position with *modern* Goliaths of Democracy, and shall let them settle it as best they may, mean while reserving enjoyment of the consoling reflection that whichever may prove the victorious party, he cannot charge the other with a "Whig lie," as, they are both Democrats, either new or old. But we must make one or two more quotations Democratic friends will remember, in charity, at least, when they get to talking about Whig arguments. Listen—

"They, [the committee,] object to the principle of the bill [Clay's,] because it proposes to change—and that most injuriously and fatally *for the new States*, the character of their relation to the federal government. * * * * "If this plan, of distribution, had been in force heretofore, the price of the public lands would not have been reduced in 1819 and '20, nor *relief* laws passed which exhonerated the *new States* from a debt of near *twenty millions of dollars.*"

And notwithstanding this immense grant to the new States of twenty millions which is here endorsed, yet we *now* hear it told the people that not an acre has deen squandered! O, no not an "acre." But 20 millions of money *for* the "acres." And does it make any difference whether we lose the "acres" or the money on their account. Had not the difference, if any, *better be* in "acres"? Verily Democracy is "some," is it not, particularly on the land question. This Report is concluded with formidable reasons summed up under seven heads, two of which we quote as containing the gist of the whole:

"2nd. Because the public debt being *now paid*, the public lands are *entirely released*, from the pledge they were under to that object and are free to receive a *new* and *liberal destination for the relief of the States in which they lie.*"

"3rd. Because nearly one hundred millions of land now in market *are* refuse of sales and donations, through a long series of years and of very little actual value, and fit only to be *given to settlers*, or abandoned to the States *in which they lie.*"

The Homestead principle of "giving" to "settlers" is recognized in the above it will be seen.

As late as 1841 Mr. King avowed in the Senate, that that was yet his doctrine. Now we ask a "revenue" Democrat of N. C. to read carefully the above extracts from the Democratic report of the land committee in 1832; connect it with the fact that Gen, Jackson said in his message, that the lands were "*releived* from the pledge" of the revolutionary war debt, and should "*cease* to be a source of revenue"; then trace along "the line of safe precedents," the action of largely Democratic Congresses in the last seven years particularly, of making grants of more than an hundred *millions* of acres to the western States, in view of their growing importance and their increase in presidential votes, and then to Cass and Douglas, one having been a candidate of the Democratic party for president, and the other wanting to be (and perhaps a majority of his party wanting him to be,) and then to the message of the president, Democratic president Pierce, and on this land subject he says, "Regarding our public domain [land] as *chiefly* valuable to provide *homes* for the industrious and enterprising, I am not prepared to recommend *any* essential *change* in the land system, except by modifications in favor of the ACTUAL SETTLER, and an extension of the preemption," &c.

There is the Homestead doctrine "recommended" by the president. While campaign speeches say the land is valuable "*chiefly*" as "revenue," Gen. P. says it is valuable "*chiefly* as homes" for "actual settlers." So does the Homestead, and therefore provides "homes" in full right and title for all who will settle, "without price and without money" in the new States. Our legislature has expressly voted that this is a *squandering* system and have condemned it, and the majority of the *Democrats in this* State, *voting for the resolution.* Can it be that we can sustain a party with its present professions?—We believe not.

Let us come out for the rights of the old States *also*, in this vast tract of public lands.—Let us join those who are endeavouring to obtain those rights, and who will do so whenever it be in their power. Can it be possible that a North Carolinian will be so forgetful of his duty to his native State as to vote with those who are opposed to obtaining her rights in these lands? The influence of our vote will be strongly felt at Washington City either for or against us. Let that influence be *for us*, and *not against us.*.

MR. BRAG'S POSITION.

We give the following from the Carolinian, the Democratic organ at Fayetteville, as Mr. Bragg's position on internal improvements, defined by himself, which is intended to correct our misrepresentation of Mr. B.

"His [Mr. Bragg's] position, was expressed by the resolution of the Democratic State Convention. He was not in favor of contracting such a debt that the means and resources of the State would not be adequate to pay off the interest. This had been his position at Edenton. Of course it would be absurd to talk about any extension of a system of internal improvement by the State, if the money was not to be borrowed for the purpose, for there was no money in the treasury. He hoped that no one would suppose him so stupid as to have given such an answer as he was alleged to have made. It was *impossible*, he said, *to say* at this time precisely, *what* the *means* and resources of the State *would allow*, for *that question depended* to a considerable extent *on the success* of schemes now *in process* of construction. *If those* schemes turned out well, and *paid good dividends*, THEN the *means* of the State would be greatly increased, and he was willing to be *as* liberal towards schemes of internal improvement as THOSE *means* and resources would allow."

We think that if the Carolinian will re-read the above and with particular attention, the sentences which we italicise, he cannot fail to perceive that our constructions are legitimate.

If it were "*impossible* to say" what the "means and resources" of the State were, we would scarcely think he knew much of them.

What does Mr. B. mean, immediately after speaking of what the "means and resources of the State *would allow*," by saying that, "THAT question DEPENDED to a considerable extent on the success of schemes *now in process* of construction."

Now what does the first term "*those* schemes" refer to, if it is not those "now in process of construction?" If so, what are these schemes required to perform to make them subject to the contingency of that "if" which begins the sentence? Why certainly to "pay good *dividends.*" Now, if we be correct, thus far, of what is the "*then*"—the next word, a consequent, if it be not of the payment of "good dividends." What "means" then, *can* be referred to, if it be not the "good dividends," for is it not expressly referred to in the same sentence where he says, "he is willing to be *as* liberal to works of internal improvement as *those means* and resources would allow?"

If then, the term "those means" in the last sentence, does not directly refer to "*dividends*" from "present schemes," please tell us just what they are, and we will give credit.

If the Carolinian fails to inform us, then the people cannot fail to see that if they wait for Mr. Bragg's "means and resources" of the "present" railroads to "pay dividends" enough, even with what we have to extend the N. C. Road East to a Harbor, and West to produce, don't you think reader, that the Railroad will be a "long time coming." We therefore say to you that if you are a friend to the Road, and want to see it in operation, vote for its friends, who are open, avowed, and directly for it, and for the *means* of getting it without *waiting* at all for "dividends." *General Alfrrd Dockery* is the friend of the Road, on whom you can rely. He has always been a firm friend of these improvements and waits for no "but's," "if's," or "whenever," unnecessarily.

HE WON'T!

Mr. Clingman says, he cannot support Gen. Dockery because their principles don't agree.—Well, that is a matter of taste, entirely. Gen. Dockery is a Union man, Clingman is a *secessionist.* Gen. Dockery is and was a friend of the compromise of 1850, the great leading feature in the administration of Mr. Fillmore.—Clingman was *against* that compromise. Gen. Dockery is and always has been, a friend of internal improvements, Clingman has deserted the friends of that system. Gen. Dockery sees the continual squandering of the public lands to new States and wishes to arrest it by giving the old States, N. C. inclusive, a share of those lands. Mr Clingman opposes and ridicules distribution. No wonder he will not and cannot support so pure a patriot, so good a man, and so true a State's rights, and North Carolinian as General Alfred Dockery! If he could find some *South Carolina* nullifier, or Nashville convention disunionist, he would support him with a hearty good will. Well Mr. Bragg, lives away up yonder close to the Virginia line, perhaps he will find a more congeneal spirit there. At any rate, we hope he never will openly support the Whig ticket until he change *again.* Then let him vote and say nothing about it.

☞ Hon. H. M. Shaw, in a speech abounding in misrepresentation, absurd arguments and assumptions, and Democracy, stated that according to the arguments of those who are in favor of dividing the public lands among all the States, that the "power to dispose of the territory" from which is derived the power to distribute the lands, would also empower them to distribute among the States, the forts, arsenals, and "even the Capitol in which we are now deliberating."

Well, suppose we admit this conclusion, and pray, would it present a more ridiculous, or a worse state of affairs than his Democratic argument also admits, viz: a dividing of the same among the *western* States, in "alternate sections" on the doctrine of "prudent proprietorship."

We should like for some committee on abstractions to show us where in the latter is better policy than the former.

"I COMMAND, YOU OBEY."

The Hon. Thomas L. Clingman has issued his orders from headquarters in Washington City, to those over whom he presumes to sway his sceptre. Since he has issued *his* bull surely *now*, no man who ever saw Thomas (Leonedas?) Clingman can have the temerity to vote any other ticket than that which he commands. But what would appear singular to a stranger just arriving to this country, there are journals professing to be *democratic*, which are "rejoicing with exceeding great joy" at this demonstration.

In his letter to the Raleigh *junto*, he sets out by stating that he has been charged with having "gone over to the Loco Focos, *and bargaining with Gov. Reid for the Senatorship"!* He very ingeniously, couples these charges *together*, [can't one cunning lawyer get serious charges against himself and then claim sympathy?] and indifferently pronounces *them a* false charge!—Why does he not come out openly and aboveboard and define his position and state that he was a *Loco Foco*, where he had placed himself long ago, but especially in a speech during this last spring.

Having, for late years acted with the Democratic party in all important elections, and "*having*" as he says, "received a majority of the votes of that party, in the last legislature for Senator," and having thrown all the weight of his influence in favor of that party, it is to be hoped that the Whigs of his district now, seeing where he has placed *himself*, will deal with him "according to his deeds," and leave him to the tender mercies of those who have attracted him thither, and with whom he so uniformly co-operates. He has totally abandoned the party and principles who are in favor of internal improvements, and for obtaining North Carolina's share of the public lands. He has thus forfeited his claims to the support of the friends of those great measures.

But to show the consummate arrogance, and bloated self-importance which this Ajax Timoleon assumes to himself, we direct attention to the following passage in his letter:—"The circumstances that Gen. Dockery was nominated by a respectable body of gentlemen called a Whig Convention, does not give him *any* additional claims to my support. That Convention was mainly controled by influences hostile to *me*, both politically and personally, and *I* have reason to believe that a prominent purpose was to *injure me* and defeat my *political friends*, who might chance to be candidates to the legislature." Is not there an exhibition of self importance and prominence reminding one of the fly on the ox's horn. We were in several primary meetings, and we heard nothing of any such influence as Mr. C. here portrays. Indeed so far from it that we did not even hear, or think of him on such occasions. At the State Whig Convention, we know not that his name was thought of in connexion with our proceeding, by any member of that body. Certain it is that no member's course therein was influenced in the very slightest degree with reference to T. L. Clingman, either pro or con. For no one, certainly in the *Whig* Convention, deemed him [illegible] worthy [illegible] either to denounce or court; and in the language of the ox to the fly in the fable, "indeed, sir, if you had not spoken I should not known you were there." No Whig in this State, we believe, has feared or coveted him or his influence in this campaign from first to last. A man who will desert the friends of the great principles in which our beloved State is so deeply interested is no object of Whig fear or flattery.

'ALTERNATE SECTIONS'—OUR LOSS.

It is asserted by the North Carolina apologists of western land monopolists, the leaders of the Democratic party, that the alternate sections of laud granted to the western States, are sold for and bring into the U. S. treasury, *double* the government price for other lands. This is their *theory* and assertions. What is the *practice?* The record shows that such assumptions are utterly groundless. There is *only one* case of "alternate section" sale, specially referred to by the Report of the Secretary of the Interior.—That one shows *a loss* to the government in about 19,000 acres of land, of over $14,000 [fourteen thousand dollars.] See page 56 Prest. Mess. and accg. Doc.] In the very next paragraph of the same report the Secretary says—

"A *like effect* has been produced upon the sales of the *alternate sections* reserved to the U. States *wherever* similar grants have been made."

In the face of this record, we are unblushingly told that the government "looses nothing" under this "prudent proprietor" doctrine of Gen. Pierce! The Secretary distinctly states that *a like effect* is produced *wherever* it is tried.

We hope our friends will *read the documents* to the people and condemn out of their own mouths these western apologisers for squandering lands for votes in presidential elections.—This abominable system of land monopoly should be exposed and condemned. It is in the power of the people to set *their seal* of condemnation upon it. By this miserable "alternate section" "prudent proprietor" pretext the western States are getting all the lands. Will the people of the old States "North Carolina inclusive" submit to such an outrage, merely to sustain any party. Our rights claim our attention *first*, and then our party afterwards.

THE CAMPAIGN.—Our accounts from the West concur in the opinion that Gen. Dockery will sweep that region of country by unusually large majorities. We have no doubt of the fact. He is the very man to take with our honest republican citizens of the West. That the Standard is badly faightened may be justly inferred from two facts—first the unexampled activity with which it lies; and secondly, the earnestness with which it bawls to the West that Thos. L. Clingman is against Gen. Dockery.

"Help me, Cassius, or I sink."

Clingman will, doubtless, be able to dictate his own terms to the democracy this time, but whether they will be able to fulgl their part of the engagement, is a question not easily answered. We think they will not. We think the people of the mountain region begin to entertain an idea that Mr. Clingman has no right to trade them off, like cattle in the shambles. —*N. C. Argus.*

"YOUR PAPER DID'NT COME, SIR."

We recommeud a careful perusal of the following plain statement, both to post-masters and to subscribers. It is from a paper called "the Advance" published at Hernando, Miss.

"The uncertain arrival, or uncertain delivery of papers at country post-offices, is often the ground of complaint against publishers and editors. Many of the offices are poorly supplied with conveniences for taking care of papers, no matter with what certainty they arrive. The papers are jumbled into a few little pigeon holes, or piled upon a desk, box or barrel, to await the call of subscribers—in the midst of boots, hats, bridles, horse collars, and other coarse wares, which may be called for during the day by customers. Country post-masters, in most cases being engaged in some mercantile business, many newspapers find their way into some obscure corner, where they are hid for a time from human eyes, as completely as if buried in a mountain cave. In comes the man for his paper and as it can't be found, of course, "it did'nt come." The indignant subscriber consequently abuses the rascally editor, and perhaps calls for pen ink and paper, to write a letter of complaint about not sending his paper punctually, when if the said paper were endowed with speech, it would cry out "here I am, squeezed to death behind this box or under this barrel" [or in the wrong pigeon hole.] We have seen just such things, [so have we Ed. Tel.] at many country post offices elsewhere in this country. These remarks have no reference to any *particular* office, but mean for all where they will apply."

☞ From our own knowledge, we positively assert, that Lawyer Bragg has always been opposed to Internal Improvements, and the interests of the people. About four years ago, Gen. Parsons, the Democratic candidate for Congress, came out openly, even against the re-opening of Nag's Head Inlet!—a measure, that every man, woman, and child, is deeply interested in; and Lawyer Bragg, stuck up to the Gen'l. and tried to put him through, but he could'nt come it We say, that Lawyer Bragg, has been, and is now, opposed to Internal Improvements, regardless of his lodging, to suit different localities; all of his friends along the Albemarle, are opposed to them. Why don't his friends at home, show, when, or where, he ever took a position, in favor of Internal Improvements, and the rights, and interests of the people? they can't do it; they will not attempt it.

Look at the Journals—look at the Records, and there you will find Lawyer Bragg, oppressing poor and unfortunate men—grinding them down to the very dust. In his estimation, they are not fit, to occupy a position with white kid gloves, and silk stocking gentry. Away with such flippant aristocrats; the sovereign people, are for Alfred Dockery, who associates with them and takes them by the hand in all crowds, on all occasions, and under all circumstances! and fellow-citizens, he is not ashamed to do it. Nine cheers, and all hands hurrah, for Farmer Dockery, the poor man's friend!—*Vilager.*

HARD TO PLEASE.—Mr. Bragg at this place complained that he was sick and tired of hearing the same identical speech from Mr. Dockery that he heard him make when he first met him in the East. We have no doubt it began to sound monotonous to the refined ear of Mr. Bragg, who had, according to the reports of his speeches furnished by papers of both parties, CHANGED his speech very materially in different localities. These locofoco leaders are strange men to get along with. Two years ago, they sent certificates over the State, to prove that Mr. Kerr HAD CHANGED his speech. This year, their champion complains that Gen. Dockery WONT [illegible] that it may not grate so harshly on his refined and delicate ear.—*Greensborough Patriot.*

☞ It is unnecessary for us to conceal the fact; the people are for Dockery, liberty, and their natural, and lawful rights; it is useless to import foreign influence, to overawe and back them out. North Carolinians declare, that Dockery is the man for them; that he is for their interests, and that they will elect him by an overwhelming majority, in spite of foreign gold, Virginia, South Carolina, and the combined forces of the rest of mankind. Hurra for Alfred Dockery; by the eternal, he can't be beaten!—*Plymouth Villager.*

LAWYER BRAGG'S OWN COUNTY AGAINST HIM.—We have just seen several gentlemen from Northampton, who tell us, that he is odious with the people, and that Alfred Dockery will beat him—badly beat him, in his own county. They know Lawyer Bragg, and are determined not to be deceived [illegible] know him to be opposed to the [illegible] and that [illegible] has time and so stopped the hand of resurrection can never reach him.—*Vilager.*

Secretary Dobbin, has declared that the sons of North Carolina should rise up in their might, and demand their share of the public lands.—Abraham W. Venable, has declared it; Romulus M. Saunders, has declared it; Alfred Dockery declares it; the people, ask for their rights; but Lawyer Bragg, tells them plainly, that they ought not, and shall not have them! What will the sovereign people, say to such arrogance?—*Vilager.*

Dysentery, Diarrhœa, and Summer Complaint

IN presenting this justly celebrated Medicine to the public, we make no rash assertions of its efficacy, nor is any hope held out to the afflicted which facts do not warrant.

This remedy having been, for years, used in this place for the cure of the above diseases, and those appertaining to the same class, the Proprietor has been induced to offer it on a more extensive scale, with a view to lessen the amount of human suffering. I have never known it to fail, when the Directions have been strictly adhered to.

Many *useless nostrums* have been palmed upon the public, and I hesitated for some time, until thoroughly convinced of its efficacy.

Extract of a letter received from S. J. CARROLL:
BALTIMORE, Jan. 10th, 1853.

WM. H. LIPPITT, Esq.—Dear Sir:—I have no hesitation in saying that your Specific is one of *the best Medicines extant for Disentery, Diarrhœa &c.* You possibly may recollect my case; if it has escaped your memory, I will give you briefly the facts. I had tried every thing that I had seen used, but with little success. And after using enough to start twenty-five Homeopathic *M. D's.* I began to dispair, when you kindly offered me your invaluable Medicine, which cured me effectually. Yours truly S. J. CARROLL.

WM. H. LIPPITT, Esq.—Dear Sir:—It is with pleasure I state that I have used your Specific for the cure of Dysentery, Diarrhœa, &c., and found it to produce the desired effect in every case I used it, after the usual remedies have failed. I recommend it with confidence to the public.

SAVANNAH, Ga., Dec. 26, 1851

MR. WM. H. LIPPITT.—Dear Sir:—It is with pleasure I acknowledge the wonderful effects of your *Medicine* for curing Diarrhœa or Bowel Complaint, as I am satisfied it was the means, under God, of saving the life, first of my child and then of my brother. As my brother was given up by two of the most eminent physicians in this place, Drs. Richardson and Wregg, and when I consulted the latter, as to the propriety of trying it on him so low, he said I might, to satisfy myself that I had left nothing untried but he did not think that medicine would be of any use to him. But, thank God, he was mistaken, as we saw the salutary effects in 24 hours, and in ten days he was able to be out of his bed. I remain yours, very truly and gratefully, WM. BAILY.

The American's Friend.

HOLLOWAY'S PILLS.

To the citizens of the United States:

I most humbly and sincerely thank you for the immense patronage which you have bestowed upon my Pills. I take this opportunity of stating that my Ancestors were all American citizens, and I entertain for all that concerns America and the Americans, the most lively sympathies, so much so that I originally compound these Pills expressly to suit your climate, habits, constitutions, and manner of living, intending to establish myself among you, which I have now done, by taking premises in New York. THOS. HOLLOWAY.

38, *Corner of Ann and Nassau St., New York.*

Purification of the blood, and Liver and billious complaints.

The citizens of the Union suffer much from the disorders of the Liver and Stomach, scarcely any are free from the influence of these destructive maladies, hence life wears fast. The fair sex, perhaps the most handsome in the world, up to a certain period when, distressing to say, many loose their teeth and good looks, while yet in the heyday of life, such sad evils may be effectually remedied by continually keeping the blood pure, and the Liver and Stomach in a healthy action, when life will flow smoothly, and resemble plants in a congenial clime, where an eternal spring appears to reign. As it regards the prese vation of the human frame, and the duration of life, much may be effected, and I say fearlessly, that health and life can be prolonged for many years beyond their ordinary limits, if Holloway's Pills are taken to purify the blood according to the rules laid down for health contained in the directions which accompany each box.

A CASE OF WEAKNESS AND DEBILITY, OF 19 YEARS STANDING, CURED BY HOLLOWAY'S PILLS.

Copy of a letter from Captain John Johnson, Astor House, New York, dated January 5th, 1854.

To Prof. Holloway, 38, corner of Ann and Nassau Street, New York.

Sir,—It is with the most heartfelt pleasure I have to inform you that I have been restored to health and strength by taking your Pills. For the last ten years, I suffered from a derangement of the Liver and Stomach, and was reduced to such an extremity that I gave up my ship, never expecting to go to sea any more, as I had tried every remedy that was recommended to me, but all to no purpose; and had given myself up to despair, when I was at last recommended to take your Pills. After using them for three months, the result is that I am now in better health than I have been for eleven years past, and indeed as well as ever I was in my life. You are quite at liberty to make this known for the benefit of others. I remain, Sir, yours respectfully,

(Signed) JOHN JOHNSON.

These celebrated Pills are wonderfully efficacious in the following complaints:

Ague, Asthma, Billious complaints, blotches on the skin, bowel complaints, constipation of the bowels, Debility, Dropsy, Erysipelas, Female irregularities, Fevers of all kinds, Gout, Head-ache Indigestion, Jaundice, Liver complaints, Piles, Retention of Urine, Scrofula, or King's Evil, Stone and Gravel, Secondary symptoms, Venereal Affections, Worms of all kinds, weakness from what ever cause.

*** Sold at the Establishment of Prof. Holloway, 88, corner of Ann and Nassau Sts., New York; also by all respectable Druggists and Dealers in Medicines throughout the United States, in boxes at 37½ cents, 87 cents, and $1;50 cents each. MEDICINES.

HAMPTON'S

VEGETABLE TINCTURE.

Great Cure for Rheumatism, Dyspepsia, Scrofula, &c.

HON. HENRY CLAY and Hon. R. M Johnson have certified to its merits. Captain Canot, brother to the celebrated physician to the EMPEROR OF FRANCE, was cured by it of Chronic Inflammatory Rheumatism of 7 years' duration, after the skill of the physicians of Paris, London and of this country had failed. Rev. Vernon Eskridge, Chaplain U. S. Navy, was cured by it. Also, Judge Davies, Hon. T. H. Shelby, Members of Congress, with members of the State Department, Washington and hundreds of others who give their testimony to this wonderful discovery.

Physicians have cured themselves and the members of their families by its use, after their own remedies have failed; and some of them are so generous as to recommend it to their patients.—Being altogether from the Vegetable Kingdom, it may be used by all, truly being the GREAT RESTORATIVE.

By a wise choice and combination of some of the best of each class of simple remedies, discovered as above, it fully reaches all the essential organs of the system, and thus it has proved so powerfully curative of the whole round of NERVOUS DISEASES, in the various forms, giving new life and vigor, restoring the shattered constitution, and thus infusing hope in place of despondency. By its mild pleasant and safe action on the stomach, liver, kidneys, lungs, and the nervous system, cures *Dyspepsia, Liver Complaint, Diseases of the Urinary Organs, Coughs, Asthma, Bronchial Affections Consumption, Scrofula, King's Evil, Worms, Rheumatism, Gout, Neuralgia, St. Vitus' Dance, Fits, Fistula, Piles,* with all Diseases arising from impure blood.

The Female System has in Dr. Hampton's Vegetable Tincture a cure for its numerous and complicated derangements. Hundreds who were debilitated and dispirited, and on the verge of a premature grave, have been restored by its use to blooming health, which we are abundantly able to prove by a host of LIVING WITNESSES.

Liver Complaint, Debility.

Extract from James Harris, Esq.'s Letter, Alexandria, Va.—After speaking of wonderful cures on himself, he says: "Mrs. H. has been suffering with the liver complaint, and with inability, constantly complaining, from weakness, through her whole system. She now enjoys better health than for thirty years, being entirely restored by the use of *Hampton's Vegetable Tincture.*"

Diseased Side, Breast Eyes.—*Extract from a Letter from J. Grimes, Esq., London county, Va.*—"My wife has been for years afflicted with great weakness, pain in the breast, side and back; palpitation of the heart; feebleness of the nervous system; loss of appetite; complexion sallow; the sight of one eye almost gone, the other very weak. I am pleased to say, *Hampton's Tincture* has restored her to perfect health. Her eyes are as good as ever they were.

Rheumatism, 38 Years. Mrs. E. Bagwell, of Virginia, suffered from Rheumatism from her 12th to her 50th year of age; at times entirely helpless Being wealthy, she employed the best medical attendance [illegible] cures, but was cured only by *Hampton's Vegetable Tincture.*

Chronic Inflammatory Rheumatism.—The wife of Thomas M. Yeakle, 76 Pearl street, was a great sufferer for eight years Restored to perfect health by *Hampton's Vegetable Tincture.*

Mercurial Rheumatism—Mr. Jarret Plummer, 158 East Baltimore street, suffered this disease intensely six years; could not step; dreadful ulcers formed on his limbs, from which splinters of bones issued. His physicians pronounced him incurable; but *Hampton's Vegetable Tincture* cured him.

Hereditary Scrofula—A boy in the family of Hon. W. P. Thomasson, once member of Congress from Kentucky, was a mass of sores from head to foot. His eyelids turned inside out, protruding over the eyeballs so as to produce blindness. He was cured by *Hampton's Vegetable Tincture.*

Dyspepsia, Nervous Disease, &c.—Mr. Wm. Oldham, of Baltimore custom house, suffered these complaints for eighteen months, with both body and mind seriously affected. He was cured by *Hampton's Vegetable Tincture,* after other things failed.

HUNTSVILLE, Yadkin Co., N. C., Nov 28, 1853.

Dr. J. B. Marchisi, Dear Sir:—I deem it my duty to express to you my sincere thanks for your discovery of the celebrated Female medicine. (Catholicon) My wife has been more or less troubled with flooding for eight or nine years, and found no thing to give her relief, until, by accident, I got a bottle of your medicine, and found it just the thing wanted. It acted like a charm and has given her entire relief of a permanent character. With much respect, yourob't serv't.

Radway's Renovating Resolvent *Resolves, Renovates, Rebuilds.*

It cures scrofula, syphilis, sores, asthma, bronchitis, ulcers, tumors, consumption, rickets, moder, fever sores, Erysipelas, bleeding of the lungs, St. Vitus dance, salt rheum, canker, rash, and tetters.

The above 18 complaints R. R. resolvent will positively cure.

It renovates the system completely, resolving away from the solids all impure poisonous and diseased deposits, freeing the blood and fluids of Life from all corrupt humors, restoring energy and vigor, health and strength, to every organ and member of the body.

Letters from High Authority.

Hon. J. J. Middleton, of Warcamaw, S. C., writes us under date of May 2d, 1853. That Radway's renovating resolvent cured one of his negroes, on his plantation at Beaufort, of scrofulous complaint of many years standing. The poor fellow was a disgusting object of pity, he was a moving mass of sores. The other negroes could not remain in the same place with him. He was entirely cured by Radways renovating resolvent, and is now at work upon the plantation. To the people of S. C. Mr. Middleton is well known, and to the political world Mr. Middleton is no stranger.

Scrofula.—Mr. W. B. Oliver, of Drayton, Dooly Co., Ga., under date of May 30, 1853.—Writes that a servant girl was so reduced that no one would give a thrip for her life, she was so covered with sores, there was not a spot of pure flesh of the size of a silver dollar on her whole body, was entirely cured by Radway's renovatieg resolvent.

19 years.—Mrs. Henderson, of Westford, Mass., was covered with sores for 19 years, has been cured by *R. R.* resolvent.

Salt Rheum.—The most obstinate cases of salt rheum will quickly yield to the renovating resolvent. One gentleman who supposed that this complaint was hereditary in his family, and had been afflicted with salt rheum since his birth, was cured by the use of a few bottles of the renovating resolvent, and the poisonous rheum entirely eradicated from his system. It regenerates every organ and member of the body; it makes sound, healthy and strong all weak, diseased and unsound parts. Weakness in Male or Female is quickly cured, and the debiliated and emaciated made strong, vigorous and healthy. Impotence and Nocturnal Emission in men, or diseases of either one or more of the generative organs, is quickly removed, and the body restored to a healthy and sound condition.

Low spirit—nervousness.—In women, the numerous complaints and ailments which cast such gloom over their spirits, a few doses of the renovating resolvent will quickly remove and the most nervous, gloom and depressed, feel healthy, strong and happy.

Persons wishing this remedy will please ask for Radway's renovating resolvent. It's price is $1 per bottle. No small bottles, nor is the genuine ever sold for less. Each bottle bears the fac simile signature of
